

Sat.Oct.27 Credit River Metro East Anglers Coho Salmon Egg Harvest

OCTOBER 29, 2012 | UNCATEGORIZED | NO COMMENTS |

Oct 27 TUFA sent volunteers to participate in the Metro East Anglers Coho Salmon egg and milt harvest for the Ringwood Fish Hatchery.

Coho Salmon and a few Brown Trout were caught in fish traps, electro fishing, and trapped in the fish ladder. The volunteers netted the salmon and harvested the eggs and milt. The eggs and milt and salmon were all tagged and bagged and adipose fin clippings taken for testing.

The harvest was successful in meeting its goals.

TUFA volunteers received a course in harvesting procedures from The Metro East Anglers.

A Big ThankYou to The Metro East Anglers for their knowledge, guidance and paitence and for inviting us to participate.

Future Coho Salmon runs will benefit greatly from the efforts of The Metro East Anglers and Ringwood Hatchery.

Thanks to the TUFA volunteers....it was a wet and cold day to be in the Credit River.
